

USING THE PROPER STONE CARE PRODUCTS TO PROTECT STONE

ISHICLEAN SERIES  
**ABURA REMOVER**  
Stain remover for vegetable oil

Oil stains which occurred from the kitchen spread out on the floor by walk. The oil stain penetrates into stones easily and it is difficult to remove it.

This “ABURA REMOVER” can remove the oil stain and restore the beauty of the stone.

***KONSHO CO.,LTD.***

## 【USAGE】

- For slight stain  
Spread ABURA REMOVER (100% concentration ~ 5 times dilution) on the stain,  
leave for 5 – 15 min.  
Brush up.
- NENDOL is used together
  - (1) Mix ABURA REMOVER with NENDOL and make paste. (The softness of about the earlobe.)  
ABURA REMOVER : NENDOL = 1 : 0.8 – 1
  - (2) Spread the paste and cover the stain completely. (2~3mm thick.)
  - (3) To prevent evaporation, cover area with a plastic sheet.
  - (4) Leave for 3 ~ 12 hours depending on the degree of the stain.
  - (5) Remove the paste, use water to clean the surface area.

\* It is more effective to dry the paste after taking off the plastic sheet.
